

Safe Medication Disposal

Prescription medication plays an important role in treating certain conditions. Unused or expired medications should be properly disposed of to avoid harm. For example, pain medication (opioids) can be very effective for treating pain, but prolonged use or misuse can lead to addiction, accidental poisoning or overdose.

80%+

Of older adults (ages 57 to 85 years) use at least one prescription medication daily¹

16 million

Americans aged 12 or older misuse prescriptions in a year¹

62%

Of teens report misusing prescription medications because they can access them from their parent's medicine cabinets¹

Proper disposal of unused medications saves lives.
