

# Safe Medication Disposal

Prescription medication plays an important role in treating certain conditions. Unused or expired medications should be properly disposed of to avoid harm. For example, pain medication (opioids) can be very effective for treating pain, but prolonged use or misuse can lead to addiction, accidental poisoning or overdose.

**80%+**

Of older adults (ages 57 to 85 years) use at least one prescription medication daily<sup>1</sup>

**16 million**

Americans aged 12 or older misuse prescriptions in a year<sup>1</sup>

**62%**

Of teens report misusing prescription medications because they can access them from their parent's medicine cabinets<sup>1</sup>

**Proper disposal of unused medications saves lives.**

## HOWARD COUNTY

### Safe Home Disposal

Medication disposal packets are available at your local pharmacy to support safe disposal of unused medications at home. Scan the QR codes for instructional videos.

#### DisposeRx ®

- 1) Remove prescription label, open bottle and fill 2/3 with water.
- 2) Empty packet of DisposeRx ® into the bottle, replace cap.
- 3) Shake for 30 seconds then throw bottle in trash.
