

## OBJECTIVE

Monthly Patient Workforce Safety Council at Mary Greeley Medical Center rounds on inpatient units for about five to ten minutes providing Safety Spotlights or Micro learnings to improve patient and employee safe handling.

## BACKGROUND

Patient and Workforce Safety Council was implemented to advocate safety for patients and employees at Mary Greeley Medical Center. Council consists of multidisciplinary members of various departments sharing ideas and tips to inpatient units. Safety Spotlights have focused on falls, pain reassessment, hospital acquired pressure injury, combative patients, purposeful rounding, and mental health.

Patient Workforce Safety Council

## ACTIONS TAKEN

- Annual Safety Fair for employees to attend in an open house setting.
- Pop quizzes of critical thinking situations.
- Drills– fastest person on the unit to respond to an alarm which was from the bathroom, chair, or bed alarm.
- Sunshine Cart for employee well-being while providing MGMC mental health resources.

## ANALYSIS

### Big Dot **GOALS**

Our 4 core strategic objectives designed to drive hospital performance, safety, and staff engagement.

-  **ELIMINATE SERIOUS PREVENTABLE HARM**
-  **ENHANCE THE PATIENT EXPERIENCE**
-  **ENHANCE WORKFORCE ENGAGEMENT & SAFETY**
-  **OPTIMIZE OPERATIONS FOR FINANCIAL HEALTH**

## NEXT STEPS

- Continue Safety Spotlights monthly.
  - A month prior council selects a topic that is relative to Mary Greeley's Big Dot Goals including preventable harm, enhancing patient experience, improving employee engagement, and optimizing operations for financial health.
- Upcoming Council Project is relieving 1-2 staff members for 5-10 minutes to use the recharge room.
